## OBJECTIVE

I am a software engineer with 2.8 years experience in web applications & API development — Skilled in Java, Spring Boot, MongoDB, HTML, CSS. I have a strong foundation in database management, backend development. Always open to learn something new.

## EXPERIENCE

**Associate Software Engineer**  
CGI

Aug 2023 - Present  
*Hyderabad, India*

- Built a full-stack project management app from the scratch, handling everything from design to deployment.
- Led back-end operations and support for an internal automation tool, resolving user issues, and ensuring high availability and performance.
- Delivered key automation solutions using ACCELQ for UI and API automation.
- Developing REST APIs using Flask for an ongoing project, contributing to scalable backend functionalities.
- Led UI enhancement discussions for the automation tool by clarifying features and reviewing enhancements, taking up the calls for screens to be developed.

**Trainee Enginner Intern**  
CodeFrontier Pvt Ltd

July 2022 - Feb 2023  
*Banglore, India*

- Built an end-to-end e-commerce website for electronics and office products, complete with robust user and seller management systems.

## SKILLS

<b>Programming Language</b>	Java
<b>Frameworks / Technologies</b>	Spring Boot, Flask, HTML, CSS, MongoDB
<b>Tools</b>	Git, GitHub, Postman, MongoDB Compass, ACCELQ
<b>Core Competencies</b>	REST API development, Object Oriented Programming, DBMS

## PROJECTS

**Echo, E-commerce:** Developed a Spring Boot E-commerce Backend API, implementing RESTful services for product catalog, user authentication via Spring Security, shopping cart management, and order processing, utilizing Spring Data JPA for robust data persistence and complex entity relationships.

**Helios - Task Manager.** Built a fundamental Spring Boot Task Management API, implementing core CRUD operations for tasks with a RESTful design.

## EDUCATION

**Bengal College of Engineering and Technology**  
BTech in Computer Science and Engineering; CGPA:8.9

June 2019 - June 2023  
*WestBengal, India*

## CERTIFICATES AND ACHIEVEMENTS

- Bronze award from CGI in recognition of providing excellent work. August 2024
- Microsoft Certified: Azure AI Fundamentals certification March 2025
- Written [blog posts](#) demonstrating strong foundational knowledge and a commitment to sharing knowledge.
